**DECLARATION IN SUPPORT OF PETITION FOR REVIVAL OF AN
INTERNATIONAL APPLICATION DESIGNATING THE UNITED STATES
ABANDONED UNINTENTIONALLY UNDER 37 C.F.R. § 1.137(b)**

I, the undersigned Andreas Kubin hereby declare as follows:

1. I am the co-inventor of the subject matter claimed in the above-captioned application.

2. I am citizen of Austria.

3. I am providing this Declaration in support of a petition for revival of PCT/AT2001/00159 to allow for the filing of a United States nationalization of this PCT application, pursuant to the rules of 35 U.S.C. §371(c).

4. PCT/AT2001/00159 was filed May 21, 2001, and claims priority to Austrian patent application A 896/2000, filed May 23, 2000. As such, I now understand that the deadline for nationalizing PCT/AT2001/00159 into the United States was November 23, 2002.

5. The entire delay from November 23, 2002, until the filing of the Petition Under 37 C.F.R. §1.137(b) and United States application filed pursuant to 35 U.S.C. §371(c) submitted herewith was unintentional, for the reasons set forth below.

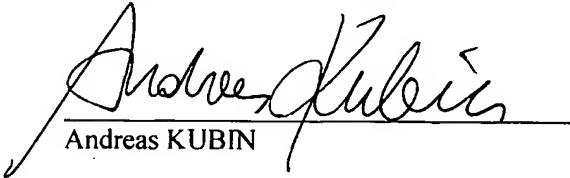

6. I am, together with Mr. Hans Günther Loew, an individual inventor of the instant application. Mr. Loew and I were managing the prosecution of the Austrian, PCT, and national counterpart applications on our own behalf.

7. Prior to the time when national applications were to be filed, we divided between the two of us the geographical responsibility for filing, prosecuting, and maintaining patents for the subject matter of the instant application. In this regard, each of us undertook the financial and administrative responsibilities for various jurisdictions. During the course of this division of responsibilities, we both mistakenly understood that the other was to take responsibility for the nationalization of PCT/AT2001/00159 in the United States. Further, because each of us thought that the other was handling the United States nationalization, neither of us attended to, nor hired counsel to attend to, the filing of such an application. At all times we intended for the application to be nationalized into the United States

8. Because each of us thought that the other was responsible for the filing of the United States nationalization of the PCT application, such nationalization did not occur by the November 23, 2002, deadline. We only very recently discovered that such a nationalization had not been filed. Upon discovery of this fact, I consulted with my counsel in Austria who contacted United States patent counsel and instructed the United States counsel to immediately begin the process of reviving PCT/AT2001/00159 and filing a United States nationalization of that application.

9. I declare that all statements made of my knowledge are true and all statements made on information are believed to be true; and, further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under § 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of this application or any patent issued thereupon.
